Membership Application Form

In 2016, the Furness Line Action Group (FLAG) had been promoting and protecting the Furness Coast rail services for 30 years. We have approximately 200 members and produce a 24 page colour newsletter three times each year for members and distribution to MPs, the press, council officials and like minded user groups.

OUR AIMS

To seek the retention, development and improvement of the Preston, Lancaster, Barrow-in-Furness to Whitehaven line, and to encourage greater usage of public transport.

Franchises, Governments, councils and MPs come and go, but FLAG, in co-operation with the Cumbrian Community Rail Partnerships, will continue to provide local knowledge and expertise to ensure that rail remains the top priority for transport investment in our area.

FLAG has developed a positive relationship with railway companies, MPs, Councils and numerous other bodies striving to increase movement of passengers and freight by rail.

Government policy and public opinion is moving firmly towards environmental issues, supporting the objectives of the railway companies to attract traffic from the roads.

Freight and passenger traffic traffic has increased over the last 25 years and we must do all we can to see that this trend continues.

The privatisation of the railways has brought both benefits and problems. We need to ensure that the train operating companies are effectively supported and resourced by the Department for Transport and Network Rail so that improvements in services can be delivered effectively.

Network Rail as custodian of the infrastructure plays a crucial part in the long term success or failure of our line. We must also ensure that investment in signalling, structures and track renewals are sufficient to support a rail revival.

This is a crucial time for all those who are interested in the future of our rail network.

Your subscription will help provide the local forum to achieve these aims.

Please Join FLAG and we can all work together to achieve our aims.
